■ iPot®

designed and produced by

⌚ supercake

**made in italy**

iPot è un sistema modulare  
in grado di assumere infinite forme.

Semplice e pratico: la sua struttura  
componibile offre una straordinaria  
flessibilità d'uso a livello compositivo  
e funzionale, e consente di realizzare  
pareti divisorie, "isole verdi" da interni  
o esterni, librerie, espositori e molto  
altro, grazie anche all'ampia gamma  
di accessori disponibili.

Personalizzabile: si adatta a ogni  
spazio e ambiente, dall'elemento più  
piccolo che ospita un solo vaso alle  
strutture più ampie e complesse.  
iPot è una soluzione unica per tutte le  
esigenze.

Interamente prodotto in Italia  
e distribuito nel mondo da Supercake  
Srl. iPot® è un marchio registrato.  
Tutti i diritti riservati.

iPot is a modular system that can take  
unlimited forms.

Simple and handy: its modular  
structure provides an extraordinary  
compositional and functional flexibility.  
You can build it up as a partition wall,  
an indoor or outdoor 'green island',  
a bookcase, a display stand and more,  
thanks to a variety of accessories.

Customizable: perfect and adjustable  
to fit in any space,  
from the smallest element hosting  
a single pot to the most complex  
configurations.  
iPot is the unique solution that best  
meets your needs!

iPot is entirely made in Italy and  
distributed worldwide by Supercake.  
iPot® is a registered trademark.  
All rights reserved.

### **iPot® è un progetto e un prodotto di Supercake.**

L'azienda con sede a Milano opera nei settori dell'architettura, del design d'interni e di prodotto, e della progettazione grafica.

L'anima di Supercake è costituita dai quattro soci fondatori, progettisti professionisti con competenze e attitudini complementari.

Il team ha creato un'azienda che, da un lato, offre servizi di progettazione completi, dall'idea alla realizzazione, e dall'altro si dedica alla progettazione di prodotti di design, controllando e gestendo la produzione e la vendita in tutto il mondo.

### **Supercake e iPot**

L'idea di iPot prende vita dalla contemporaneità, dalla varietà e dall'evoluzione degli stili di vita e degli spazi, sempre più mutevoli, che caratterizzano la nostra società: un prodotto pensato per soddisfare le nuove esigenze in termini di flessibilità d'uso e di personalizzazione.

Il progetto iPot è basato sulla modularità: ogni componente è stato ottimizzato a livello statico ed estetico, minimizzando lo spreco di materiale in fase di produzione, e riducendo lo spazio d'ingombro in fase di stoccaggio e trasporto.

iPot è un prodotto con un ciclo di vita lungo grazie alle infinite possibilità di riconfigurazione e riutilizzo.

Arredare portando la natura in ambienti domestici, di lavoro e di svago è un altro importante tratto distintivo del progetto iPot, che risolve il crescente bisogno di verde ovunque, soprattutto nei contesti metropolitani.

Dopo un'accurata fase di prototipazione e selezione dei fornitori, Supercake ha attivato e consolidato negli anni una sua rete di produzione locale, unendo gli aspetti industriali alla cura artigianale dei dettagli. La distribuzione del prodotto si avvale soprattutto dei canali di vendita on-line.

### **iPot™ is designed and produced by Supercake**

Supercake is an architecture, graphics and product design firm based in Milan. Its core team includes the 4 co-founders, all professional designers with complementary skills and attitudes. Supercake team deals with a range of planning and design activities providing concept-to-completion services, but they also design and develop new products supervising the whole process from production to worldwide distribution.

### **Supercake and iPot**

iPot is the result of a Supercake study on contemporary ever-changing lifestyles and the related evolution of space distribution in our daily life. iPot was conceived and designed to meet new needs for flexibility and customization.

The iPot design is based on modularity: each component is optimized at solid and aesthetic level, minimizing any waste of material during the manufacturing process and reducing the overall dimensions for easier transport and storage.

iPot has a very long lifecycle thanks to its unlimited possibilities of reconfiguration and reuse.

Furnishing a room or a workspace by bringing in a piece of nature is another major benefit of iPot; this fulfils the growing need of having a bit of greenery everywhere, especially in urban contexts.

After carrying on an accurate supplier selection and a prototyping phase, Supercake developed and consolidated over time a local network of manufacturers, combining the industrial aspects with a craftsman's attention to details.

We sell mainly online and ship worldwide.

## ■ iPot Ad hoc

Il sistema modulare iPot® offre un'estrema flessibilità compositiva e funzionale.

E' possibile richiedere **soluzioni personalizzate per ogni esigenza e spazio.**

**Il nostro team di professionisti offre un servizio di progettazione completo, restituendo proposte dettagliate e relativi preventivi** (come mostra l'esempio della pagina successiva).

iPot® modular system provides an extreme compositional and functional flexibility.

It allows to design **custom solutions for any need and space.**

Ask for custom solutions.

**Our team of experts will help and support you step by step, from design to purchase.**

A **detailed proposal and quote** will be sent, (as shown in the example on the next page).

### Come richiedere una soluzione Ad hoc

#### . opzione A / PRIVATO

[ipotdesign.it/adhoc](http://ipotdesign.it/adhoc)

#### . opzione A / B2B

registrarsi come **B2B**: [ipotdesign.it/B2B](http://ipotdesign.it/B2B)

Dopo aver effettuato l'accesso, entrare nella sezione **Ad hoc** e compilare la richiesta.

#### . opzione B

inviare la richiesta all'indirizzo

**[ipot@supercake.it](mailto:ipot@supercake.it)**
